be had at the Office, or on application cy letter P. F. Cama & Co.) E. H. POLLARD, Esq. The Scheme of a Local Bank for this Colony with Brenches at the most important places in China, has been in contemplation for a very long period.

The local and foreign trade in Hongkong and at the open ports in China and Japan has increased so rapidly within the last few years that additional Banking facilities are felt to be required. The Banks now in China being only branches of Corporations whose head quarters are in England or India, and which were formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in a position to deal satisfactorily with the local trade which has become so much more extensive and varied than in former years.

This deficiency the Hongkong and Shanghai Banking Company will supply and will in fact assume the same position with relation to this Colony as the Presidency Banks in India, or the Banks of Australia in their respective localities. The Establishment of a Mint in Hongkong, providing an adequate supply of proper currency, will render a local Banking medium essential to CORRESPONDENTS IN INDIA, CHINA, AMERICA.
